We are so grateful for those at Houston Methodist who have unified together to support our patients, families, and community at large. Unity can have different meaning to different people. Unity can mean support and friendship and also equality and accountability. Unity can help us get through situations that may be hard to face alone. What does unity mean for you? Fill in the acrostic below like the example to the left using words that describe what unity means to you. We welcome you to share your acrostic responses with cpam2@houstonmethodist.org!
